CMMC Compliance Without the Pain

TeloSec provides secure, compliant Microsoft Azure GCC-High infrastructure and CMMC aligned documentation, so you can move forward with confidence, not complexity.

CMMC Compliance Without the Pain

DoD government contracts managing FCI/CUI must meet strict CMMC requirements. But the traditional path is:

Expensive

Expensive → \$50K-\$200K in consultant fees, with no infrastructure included.

Slow

Slow → 6+ months just to stand up systems.

Complex

Complex → 110+ confusing security controls and documentation hurdles.

Unpredictable

Hidden fees, shifting consultant scopes, and surprise costs with no clear roadmap.

Result: Loss Contracts. Failed Audits. Wasted Budget.

Fast Onboarding

Credentials and onboarding delivered in as little as 48 hours.

How It Works

TeloSec: Key Benefits

Our turnkey solution offer multiple advantages:

- **No High Upgrade Infrastructure Cost**

Solution does not require businesses to build out or update their own infrastructure. This could cost up to a \$100k depending on the size of the contract and enterprise.

- **Consultant Cost for Expertise**

Most small to medium size businesses do not have CMMC SMEs or practitioners on staff. This could be a savings of up to \$50k+.

- **Time to reach CMMC Level 2 Self-Assessment and 3PAO Audit Readiness**

Businesses can be ready within days, not months through our SaaS solution.

- **SPRS Score**

Allows businesses to attain SPRS Level 2 self-assessment score in days to meet all 110 controls.

- **FedRAMP Moderate Equivalency Status**

Enables savings of 50% or more on 3PAO audit cost.
