2. WHAT IS NASA SEWP VI | CATEGORY C?

NASA Solutions for Enterprise-Wide Procurement (SEWP) VI is a premier Government-Wide Acquisition Contract (GWAC) that enables all federal agencies to rapidly acquire commercial IT products, software, cloud technologies, cybersecurity solutions, AI, and related technology services through a pre-competed, best-in-class acquisition vehicle.

3. HOW TO ORDER

1. Conduct Market Research

Broadcast requests for quotes to pre-competed vendors using the online SEWP Quote Request Tool (QRT) to ensure fair opportunity.

2. Generate the Delivery Order

Create an agency purchase order that explicitly cites the correct SEWP Contract Number (80TECH26D0939) and chosen Prime Contractor (Telophase Corporation).

3. Include the Administrative Fee

Ensure line items and final order totals accurately account for the mandatory 0.34% SEWP surcharge fee.

4. Submit to the SEWP Team

Email the completed order directly to sewporders@sewp.nasa.gov for PMO verification and tracking number assignment.

4. WHY NASA SEWP VI?

NASA SEWP VI is one of the federal government's premier Government-Wide Acquisition Contracts (GWACs), providing agencies with a fast, compliant, and efficient way to acquire commercial technology solutions.

- Available to all Federal agencies across Civilian and Defense sectors
- Pre-competed contract vehicle ensuring full FAR compliance
- Significantly reduced procurement lead times and operational friction
- Flexible ordering options tailored to unique mission needs
- Best-in-class acquisition vehicle designation by OMB
- Streamlined ordering process via online portal tools
